

Tzu-Ming Harry Hsu

徐子旻

Ph.D. in AI and Healthcare, MIT

Entrepreneur, Scholar, Writer, Speaker, and Diver

h@stmharry.io

+1 617-803-7785 / +886 928-494-198

- Entrepreneurial builder with experience leading cross-functional teams, scaling products from idea to launch, and turning research into practical impact.
- Researcher with peer-reviewed work spanning AI, medical imaging, and machine learning, with 3,684 Google Scholar citations.
- Taiwan-born, US-educated innovator seeking to elevate Taiwan's role as a global engineering powerhouse and promoting a culture of rapid iterative innovation.
- Ocean lover with an AIDA Instructor Certification and an SDI Open Water Scuba Diving Certification.

Education

Massachusetts Institute of Technology

Ph.D., Computer Science

Jun 2020 – Jun 2022

Cambridge, MA

- *Advisor:* Peter Szolovits
- *Research areas:* Computer vision, federated learning, machine learning for healthcare

Massachusetts Institute of Technology

S.M., Electrical Engineering and Computer Science

Sep 2017 – May 2020

Cambridge, MA

- *Advisors:* Peter Szolovits, Fadel Adib
- *Research areas:* Computer vision, machine learning, wireless signal, signal processing

National Taiwan University

B.S., Physics; B.S.E., Electrical Engineering

Sep 2011 – Jun 2016

Taipei, Taiwan

- *Class rank:* 1/190
- *GPA:* 3.99 / 4.00

Professional Experience

Dentscape

Machine Learning & Software Engineering Consultant

Apr 2025 – Present

Taipei / Remote

Led ML platform and production engineering upgrades that cut data access from ~3 days to minutes, reduced end-to-end labeling turnaround from ~4 weeks to ~1 week, improved core backend throughput by ~110%, and lowered infrastructure cost by ~50%.

- Reorganized a fragmented ~10 TB dental dataset into a standardized ~4 TB ML-ready registry, reducing raw-data access from ~3 days to minutes.
- Rebuilt labeling and pre-labeling workflows end-to-end, cutting 100-200 case batch turnaround from ~4 weeks to ~1 week with clear audit trails.
- Standardized devops/deployment with modern packaging, private registry support, and GitHub Actions; deploys moved from manual half-day ops to single-push workflows.
- Led infra migration from GPU-heavy services to CPU-compatible stack for CPU-bound workloads, reducing overall server costs by ~50%.
- Implemented bilevel/meta-learning framework for personal AI crown generation and improved preference fit by ~20%, contributing to higher user engagement.
- Optimized backend pipelines for SLO segmentation and crown generation, achieving ~110% aggregate throughput improvement.
- Introduced structured hiring and engineering standards; closed a senior leadership hire and supported award-related media visibility.

Clarq AI*Co-founder & CTO*

Dec 2024 – Present

Taipei / Remote

Helped reposition Clarq from hardware product to force-intelligence platform with 100+ deployments, 15M+ force-time samples, and 150K labeled motion sets, while driving investor narrative and US-facing fundraising readiness.

- Co-led fundraising and positioning narrative around a three-layer strategy: hardware wedge, SaaS profit engine, and long-term data/model moat.
- Drove US-facing investor outreach and progressed pre-seed conversations toward near-commit stage with angels.
- Supported Startup Island Taiwan Silicon Valley program participation and international expansion narrative.
- Aligned product roadmap, data strategy, and investor-facing story across Taiwan hardware operations and US capital market expectations.

CodeGreen Labs PBC*Co-founder & CTO*

Sep 2023 – Nov 2024

Boston / Taipei

Built decentralized software for climate-conscious investors and UN 2030-aligned initiatives, scaling to projected \$1MM annual revenue with a 10-person team and major ecosystem partnerships.

- Reached projected annual revenue of \$1MM USD by Q2 2024 with a 10-person team.
- Established partnerships with Microsoft, Global Blockchain Business Council, Gold Standard, SDG Data Alliance, and PVBLIC.
- Built a cross-functional team across climate, finance, and software to address complex data, auditability, and compliance challenges.
- Designed and shipped decentralized systems with end-to-end auditability, regulatory compliance, and interoperability with existing ecosystems.

Hashgreen Labs*Co-founder & CTO*

Sep 2022 – Aug 2023

Boston / Taipei

Scaled Hashgreen from inception to a 20-person team, raised \$1MM+ in capital, and delivered flagship green-blockchain and DeFi products for global clients.

- Raised over \$1MM USD in capital and grew the team from 0 to 20 employees.
- Built hiring, onboarding, and performance review systems to support a high-performing engineering organization.
- Secured and delivered high-impact projects for clients including The World Bank and Chia Network.
- Led development of DeFi protocols (DEX and AMM), becoming the first team on the Chia blockchain to launch these primitives.

International Academia of Biomedical Innovation Technology*Consultant & Convener*

2021 – Present

Taipei, Taiwan

Supported a 50+ member biomedical innovation community through project mentorship, dental AI research collaboration, and large-scale technology outreach events.

- Helped grow a community of 50+ members while supporting 8+ academic projects and 15+ publications.
- Led a dental AI research team in collaboration with National Taiwan University Hospital.
- Co-organized demo events with 100+ participants to showcase biomedical technologies and educate the broader community.

Massachusetts Institute of Technology*Research Assistant*

Sep 2018 – Jun 2022

Cambridge, MA

Produced 14 conference papers, 5 journal papers, and 1 U.S. patent across medical AI and computer vision, while collaborating with top research and healthcare partners to move models toward real-world clinical use.

- Published 14 conference articles, 5 journal articles, one U.S. patent, and two degree theses.
- Served as a peer reviewer for 8 conferences and journals, reviewing 34 articles.
- Received media coverage from CBS, Engadget, TechCrunch, and MIT News.
- Collaborated with Google, Takeda Pharmaceutical, and Beth Israel Deaconess Medical Center.

- Awarded scholarships totaling 4 years in duration.

WorldQuant

Data Science Intern

Jun 2021 – Aug 2021

Taipei, Taiwan

Improved an existing quantitative strategy by +1.5% market correlation through targeted modeling and optimization work.

Digital Drift

Lead Machine Learning Scientist

Mar 2016 – Mar 2020

Taipei, Taiwan

Built and deployed deep learning systems and backend APIs that moved computer vision features from experimentation into production mobile experiences.

- Built deep neural networks for cuisine recognition and matching using TensorFlow on multi-GPU machines.
- Designed and maintained backend APIs to serve model predictions in production settings.

Google

Software Engineer Intern

Jun 2020 – Sep 2020

Remote

Contributed production software and experimentation tooling that improved reliability and iteration speed for applied machine learning workflows.

Google

Student Researcher

Jun 2019 – Mar 2020

Seattle, WA / Cambridge, MA

Built large-scale ML experimentation infrastructure spanning 1,000+ GPUs and 1M+ machine hours, and published 2 peer-reviewed papers in deep federated learning with open-source outputs for broader adoption.

- Conducted foundational research in deep federated learning, contributing to early growth of the field.
- Published 2 peer-reviewed papers and presented findings at top conferences and workshops.
- Developed a scalable experimentation library running on thousands of machines and 1,000+ GPUs (over 1M machine hours).
- Open-sourced research code and datasets for broader community use.

Brigham and Women's Hospital

Research Trainee

Mar 2019 – Feb 2020

Boston, MA

Beth Israel Deaconess Medical Center

Research Trainee

Nov 2019 – Oct 2020

Boston, MA

Published impactful clinical AI research and deployed a PACS-integrated screening workflow across 1,000+ patients while managing shared deep-learning compute for a 10+ member research unit.

- Published three impactful research articles on critical medical topics, including liver tumor assessment, COVID-19 clinical risk prediction, and automatic pancreatic cancer assessment.
- Developed and implemented an AI-driven patient screening pipeline in the hospital's PACS workflow, screening over 1,000 patients and improving disease diagnosis accuracy.
- Managed the computation resources for a research unit of 10+ members, streamlining deep learning processes and maximizing resource sharing.

Academia Sinica

Student Researcher

Feb 2014 – May 2016

Taipei City, Taiwan

Researched heterogeneous, unsupervised, and semi-supervised domain adaptation for visual classification and published three peer-reviewed papers presented at top conferences and workshops.

- Researched heterogeneous, unsupervised, and semi-supervised domain adaptation for visual classification.
- Published 3 peer-reviewed academic papers and presented findings at top conferences and workshops.

Olympiad Tutoring Community

Private Tutor

Sep 2011 – Jun 2015

Taipei, Taiwan

Mentored advanced physics students from fundamentals through competition-level performance, including pathways to Taiwan's national Olympiad representation.

- Mentored students who became Taiwan national representatives in the International Physics Olympiad (IPhO).

Leadership Experiences

Federation of Taiwanese Student Associations in New England (FT-SANE) <i>Activities Officer</i>	2019 – 2020 <i>Boston, MA</i>
MIT Taiwanese Student Association <i>President</i>	2018 – 2019 <i>Boston, MA</i>
<ul style="list-style-type: none">• Led coordination of 20+ events for a diverse community of over 100 members.• Organized 10+ career workshops and helped plan 10+ national holiday celebrations.	

Awards & Honors

Departmental Valedictorian (First Place at Graduation) <i>Department of Electrical Engineering, National Taiwan University</i>	2016 <i>Taipei, Taiwan</i>
<ul style="list-style-type: none">• Placed 1st among 200 classmates across all courses.	
Silver Medal <i>Altera Innovate Asia FPGA Design Competition</i>	2015 <i>Taipei, Taiwan</i>
<ul style="list-style-type: none">• Placed 2nd among 20 international teams.• Designed a product named EZBud with integrated algorithms that modulate music based on user sporting statistics.	
Gold Medal / Overall Winner <i>42nd International Physics Olympiad (IPhO)</i>	2011 <i>Bangkok, Thailand</i>
<ul style="list-style-type: none">• Represented Taiwan and placed 1st in theory, experiment, and combined rankings among 400+ participants from 80+ countries.	
Gold Medal / Experiment Winner <i>12th Asian Physics Olympiad (APhO)</i>	2011 <i>Tel Aviv, Israel</i>
<ul style="list-style-type: none">• Placed 1st in the experiment section among 100+ participants.	
Gold Medal <i>41st International Physics Olympiad (IPhO)</i>	2010 <i>Zagreb, Croatia</i>
Gold Medal / Experiment Winner <i>11th Asian Physics Olympiad (APhO)</i>	2010 <i>Taipei, Taiwan</i>
<ul style="list-style-type: none">• Placed 1st in the experiment section among 100+ participants.	
Gold Medal <i>5th International Junior Science Olympiad (IJSO)</i>	2008 <i>Changwon, Korea</i>
